

## Route 9 Community Task Force Meeting Agenda for April 8, 2003 meeting

April 8, 2003  
7:00 – 8:30 p.m.

Bear Creek Grange  
22729 Highway 9

Facilitator: Margaret Norton-Arnold

---

Informal community task forces have been formed in the communities immediately adjoining each of the two sites (Route 9 and Edmonds Unocal) under consideration for the Brightwater Treatment Plant. The task forces will assist in the planning of informational seminars and community design workshops, and will serve as important links between King County and the local community. In 2002, the task forces will assist in the planning of informational events and activities that will be most helpful in their area. For example, seminars on topics such as odor control or treatment plant technologies or tours to other wastewater treatment facilities may be planned. The task forces will also assist in the planning of and developing themes for upcoming design workshops. Task force meetings will also allow time for members to share issues, concerns, or ideas they are hearing from their neighbors and communities.

Members of the public are welcome to observe Task Force meetings. Discussion at task force meetings is limited to Task Force membership. Public comment **will not** be taken at these meetings.

For more information on the community task forces, please contact Debra Ross at 206/684-1344.
